Every Pup Counts

Every year, tiny, vulnerable seal pups arrive at our seal hospital needing specialist care, plenty of TLC and time to grow strong enough to return to the wild.

From their first days in our care to the moment they're ready to swim free, as a sponsor **your support is there every step of the way.** Each seal pup costs us an average of £2,000–£3,000 to rescue and rehabilitate, and some need even more specialist care.

By sponsoring a seal pup, you'll become part of their journey and help provide the food, care and rehabilitation they need to get back where they belong, **in the wild.**

Choose from three sponsorship levels and help give a rescued seal pup the second chance they deserve.
