Sanctuary

# Virtual SPRINT FOR SEALS FUNDRAISING CHALLENGE

Did you know grey seals can swim around 2000km when travelling? During June we would love you to help us travel the same distance and raise vital funds to help support our animals.

It costs our charity £23,000 a month to feed, provide daily care, vital medicines and equipment to the Sanctuary's residents.

We are now entering our third month without guests and need your support more than ever.

You can walk, run, cycle - any way you want to, from home or during your daily outdoor exercise. Maybe you are walking up and down your stairs or maybe you are undertaking 5km jog, all you have to do is measure the distance you travel on a phone, watch or step counter and send us your total distance - with a photo or video for us to share on our social media. Do as much or as little as you like to help us get to 2000km by 31st June!

You can support your efforts by fundraising for our animals and everyone who fundraises over £30 will get one of our exclusive 'Sprint for Seals 2020' medals! Just email [Alexandra.pearce@sealifetrust.com](mailto:Alexandra.pearce@sealifetrust.com) with proof and your postage details.

All medals will be posted out after June 31st.

Also, the person who fundraises the most money will win entry for four and the chance to feed our seals when we reopen\*

For details on how to join in, head to the How to Help section on our website  
**LET'S GET MOVING!**
